

FoundRisk Edge — Test Due-Diligence Brief

Synthetic test document created for validating the Phase 1 Document Intelligence pipeline. The figures below are fictional and are intended only for local software testing.

1. Business Snapshot

NexaCart is a fictional B2B commerce software startup serving small and mid-sized retailers in India. The company reports growing recurring revenue and customer adoption across FY2025 and FY2026.

2. Reported Metrics

Metric	FY2025	FY2026
Revenue	■4.5 Cr	■8.2 Cr
Customer Count	180 customers	340 customers
Market Size	■1,200 Cr	■1,500 Cr

3. Supporting Statements

During FY2025, NexaCart generated revenue of ■4.5 Cr from 180 customers.

During FY2026, reported revenue increased to ■8.2 Cr while the customer base reached 340 customers.

Management estimates the addressable market at ■1,200 Cr in FY2025 and ■1,500 Cr in FY2026.

4. Testing Note

This document intentionally contains multiple metric families and two reporting periods so that FoundRisk Edge can test keyword detection, numeric extraction, currency/unit normalization, period recognition, and source provenance.
